April 5, 2024 – Edition 24-0002

### ***WHY NOT GO THE EXTRA MILE?***

That's the approach **Robinson Restoration and Service** feels is such an important part of what we're about. Based on the number of visits to our website we see and assume that most of you have reviewed our entirely new website.

Honestly, we're real excited to have the opportunity to invite you inside the company, introducing you to all the departments & share updates and insights as to how RRS approaches the restoration & service business differently than so many others.

This edition doesn't represent the intended final form. Today's issue highlights how we envision the Newsletter developing. We'll be guiding you along through several special projects and the RRS race team to share expert advice and answer your questions.

#### **Preparation for this issue included selecting and condensing the segments.**

We're starting with an old motoring tradition that's gone by the wayside. We take you back to the end of WWII and our boys returning home with the sports cars they fell in love with while in Europe and England. They were compact, cheap to buy & own and fun to drive.

The famous driving habits that accompanied these special little cars was the oncoming traffic thumbs-up, official wave of fellowship, of owning and driving these truly unique automobiles.

It wasn't long before hot-rodders & custom drivers of even the American cars, picked up on it, and anyone who was an enthusiast of driving, were waving to each other.

Good stuff, but sadly gone now.

**As we explore different topics for the Newsletter, we felt compelled to share a little truth about the electric car, SUV and even trucks push that's being used by the "Re-Elect Me" movement.**

It's not the "Think Green" mind-set that troubles us, it's the total lack of long-term thinking and preparations for the transition into fully electric vehicles. This ineptness has already caused manufacturers and consumers to lose money and is a waste of energy.

**It's just about collector vehicle auction time!**

Of course, the big famous auctions will be bringing lots of attention to the collector car market. Experts predict the volume will be good, but the prices will cool a little. Look to this **NEWSLETTER** to bring you sage advice and guidance before you leap. A lot of smart buyers pay for inspection and purchase advice in this tricky market.

**For The Robinson Restoration & Service Approach,  
simply go to our NEW Website:**
